DETAILED ACTION

Election/Restrictions

-Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1,2,5,6,8,9,11, drawn to a grinding machine, classified in class 451, subclass 21.
- II. Claims 3,4,7,10,12, drawn to a method of simultaneously grinding cylindrical and radial faces of a workpiece, classified in class 451, subclass 41.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by another materially different apparatus that does not require a computer controlled means.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Attorney Daniel C. Stelter on 5/13/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3723

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anthony Ojini whose telephone number is 703 305 3768. The examiner can normally be reached on 7.30 to 5.00 Tuesday-Friday with every other Monday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Hail can be reached on 703 308 2687.
